Report - Extended attribute report for Identity

This tutorial shows how to create a basic report for the chosen extended attribute for the identity.

Preparation

I suggest that you prepared some extended attribute or you choose some already existing extended attributes. For this tutorial, I want to see the report, where we will see an extended attribute **phone**.

Report

- First of all, go to **Reports** in the side menu
- Now let's create a new report

- In the next step, we need to fill the form as shown in the picture
 - **Report** - Identities - report EAV attribute
 - **Disabled identities** - if not filled then it can be both
 - **Form definition** - In which form is our extended attribute present - here we have default Identities
 - **EAV attribute name** - name of the extended attribute
 - **Value of EAV attribute to report** - if filled then only occurrences with this value will appear in result table

Vytvořit nový report

Report
Identities - report EAV attribute (Identity-eav-report)

Disabled identities
Ne

Form definition
default (default) - IdmIdentity

EAV attribute name
phone

Value of EAV attribute to report
777 222 333

Zavřít **Generovat report**

- After clicking Generate report you can actually see the result

🔍 ✓ Provedeno
 Identities - report 09.07.2019 Administrator  d58cf52
 EAV attribute 13:56:01 (admin) 
 (identity-eav-report)

- Finally, we can download xlsx table and the report

	A	B	C	D	E	F	G	H
1	External	Username	Title before	First name	Last name	Title after	Disabled	phone
2	0001	kopr	Ing.	Ondrej	Kopr		false	777 222 333
3
